Consistently Exceeding Customers' Expectations

Our mission at R+L Carriers is to “consistently exceed our customers’ expectations by providing excellence in logistics solutions and transportation services.” The fulfillment of this mission requires solutions and services that are reliable, flexible, and predictable regardless of the situation. It also requires a leadership and organizational structure that is value-driven, change-oriented, and customer-focused.

Our extensive international shipping experience, allows us to quickly satisfy charter requirements by identifying the right carrier with the right schedule at the right price.

Air – We understand that air freight is a premium and costly service, so our program focuses on quick transit and constant communication combined with the ability to seize cost saving opportunities.

Ocean – We are a licensed Ocean Transport Intermediary (OTI). Our NVOCC is uniquely positioned to handle all aspects of ocean shipping. Through our Ocean department we provide complete, professional service with a “can-do” attitude.

Import – We are focused on the most efficient methods of moving shipments into the United States as quickly as possible, while minimizing log jams in the supply chain.

Export – We are able to provide full-service export capabilities and handle all details of your export shipments. These capabilities include, but are not limited to, letter of credit preparation, legalization, certificates of origin, and banking documentation preparation.

Charters – We are an experienced provider of international charters providing a viable alternative to scheduled airline lifts. Our charter program provides customized solutions when commercial air capacity alone will not adequately service our customer’s special requirements.
