

# In-Cab Scanning Technology

## R+L CARRIERS Provides Real Time Technology

R+L Carriers provides our valued customers the availability to view actual delivery receipts within minutes of delivery. With our In-Cab scanning technology, our drivers have the capability of scanning delivery receipts at the point of transaction. This real time solution provides instant notification to all tracing applications and allows our customers to obtain hard copies of delivery receipts upon request.

### BENEFITS

- ▶ Faster Invoice Processing
- ▶ View Actual Delivery Receipts within minutes of delivery
- ▶ Real Time Shipment Tracing
- ▶ Obtain Instant Notification

## ELECTRONIC DATA INTERCHANGE

**Electronic Data Interchange (EDI)** is the answer for reduced paper and document handling. EDI is a paperless, computer-to-computer exchange of data which performs the function of a standard business document in the industry standard data format. R+L tailors the EDI request to the customer's specific needs. The EDI system dramatically improves *accuracy, speed and productivity.*
